8th Biocomposites Conference Cologne

Find the real alternative to plastics

14 –15 November 2019, Maternushaus, Germany

Dear Sir or Madam,

You are invited to join nova as a sponsor of the well established 8th Biocomposites Conference Cologne!

Sponsoring Opportunities

8th Biocomposites Conference Cologne

14 – 15 November 2019, Maternushaus, Germany

<http://biocompositesc.com>

++ Biocomposites - the sustainable Alternative to Plastics – Market Opportunities for Biocomposites in Construction, Automotive and Consumer goods as well as in Rigid Packaging – Latest Development in Technology and Strategic Market Positioning – Biocomposite Award Session – Trends in Biocomposite Granulates for Injection Moulding, Extrusion and 3D Printing ++

Biocomposites are experiencing a significant increase in market demand. Consumers and industrial customers ask for materials and products with a low environmental impact, reduced carbon footprint and a low share of fossil-based plastics. This development unavoidably entails a higher use of wood and natural-fibres in combination with conventional or bio-based polymers. The biocomposite markets continue to grow, both in established markets like construction and automotive as well as in the more recently entered markets of consumer goods and packaging. New players create opportunities for innovative applications of biocomposites in these fields.

Top-class participants from the following industrial sectors will be present at the conference:

Corporates ++ Chemical, plastics and composite industry, agricultural and wood related industries ++ Raw material suppliers ++ Service suppliers ++ Trade and import houses ++ Engineering ++ Press ++ Machinery suppliers ++ Additive suppliers ++ Associations ++ Research & Development/Universities ++ Processors and converters ++ Consulting ++ Policy makers ++ Toys, Furniture, Construction and Automotive ++

The "8th Biocomposites Conference Cologne" is the world's largest conference and exhibition on the topic. This conference offers the unique opportunity to gain a comprehensive overview of the world of biocomposites. We offer you a possibility to position your company in this high innovative business environment.

More than 300 participants from all over the world and 25 exhibitors are expected to benefit from the new wave of interest in alternatives to plastics.

We are looking forward to a successful conference with you!
